Subject: Follow Up Request from Sunday's Meeting

Hi Josh,

I'm writing as a follow up to our conversation at the end of the meeting at Cannock College on Sunday afternoon, where you mentioned that the Site Condition Surveys for the buildings under management by IHL are now available within the public domain.

I asked if you could assist with locating these documents, as the community arts committee have been unable to locate them so far, and you advised you would be in touch with details on where we could obtain copies.

Could you please provide this information as a matter of urgency? So that the community can review the documents and leverage them within their plans to present back to the local council in due course.

I appreciate your candid responses during the meeting on Sunday and any help you are willing to provide towards the cause of attempting to save the cultural assets of the community will be warmly received by all those involved.

Kind Regards,

Ben
